### Virtual Careers Opportunities

#### College open days

Due to social distancing, we have been unable to visit colleges for taster days, but many colleges are offering virtual new students' days for Y11. See the dates below. Colleges are also looking at ways to provide opportunities (even if virtual) so that Y10 can gain some form of a college experience and we will let you know more about this as we hear in the autumn term. Many colleges already have virtual tours on their websites.

You can find out more on individual college websites or following them on social media and if you have applied, you should have received any email invitation.

- Bolton 6<sup>th</sup> Form – Friday 3<sup>rd</sup> July
- St John Rigby – Monday 29<sup>th</sup> June 2020
- Wigan and Leigh – week of 29<sup>th</sup> June – also check out 'Steps to Success' virtual help – <https://www.wigan-leigh.ac.uk/about/coronavirus-update/year-11-applicants>
- Winstanley College – active now from emails sent to pupils who have applied

## Work Experience

Work experience, through part-time jobs, volunteering, work placements or shadowing, provide evidence for skills-development that will enhance your CV and applications for apprenticeships. Having this evidence will also be beneficial as you will have more to discuss during interviews. Due to lock-down and social distancing, gaining work experience has been difficult, but employers will be interested in what action you have taken during this time to develop skills. The links below are all virtual opportunities to engage with employers and find out more about companies. Why not use this time to think about your career and continue to develop skills remotely to help to make yourself stand-out.
